

# Definition of Done Research Paper

December 7, 2021

# **1 Introduction**

One of the deliverables of this project is a research paper. in this paper, we will research the best way to integrate human satisfaction in climate management in brains for buildings, and ways to measure that comfort.

# **2 What should the paper be**

To be determined after the main question is formulated.

# **3 How will the paper be delivered**

The paper will be delivered as A .pdf file generated from a .tex file with APA source notation. The paper will be written in English.

# **4 When do we consider the paper to be "done"**

The dataset is considered done when the following conditions are met:

1. The paper is written using LaTeX format
2. The paper has APA source notation
3. The paper is structured in a professional way
4. The paper is written in professional and correct language
5. The paper answers the main question using sub questions
